Mercy is Unbusinesslike

Washington, June 27. — Asserting the present Federal system "imposed" on the Postal Department constitutes an "intolerable travesty on good business usage," Postmaster General Work in a formal letter yesterday to Secretary

Mellon, of the Treasury, urged an immediate effort be made to impress on Congress the necessity of "beginning a systematic building policy" so post-offices may not, in the future, be at the "mercy of lessors."

The present policy of renting buildings for postal usage, Dr. Work declared, "cannot be continued without an earnest protest of the Postmaster General, as it is subversive to good business methods."
